*We strive to provide  
Veterans with world-class  
benefits and services they  
have earned, and will  
adhere to the highest  
standards of integrity,  
commitment, advocacy,  
respect, and excellence.*

## Requirements to participate include video equipment to connect to your Care team or specialist

- **VA owned equipment:** Available if veteran does not own their own computer. A tablet will be mailed to your home
- **Veteran owned equipment requires the following:**
  - Computer with speakers
  - Webcam with microphone
  - Ipad/Tablet or smart phone

## Benefits of VA Video Connect

- VA Video Connect helps you save time and travel
- No fighting traffic
- No need to worry about the weather
- Less money spent on daycare (you won't have to travel to and from the VA)
- Less time to take off of work
- No Co-pay (even to see specialists) when using VA Video Connect
- Less wear and tear on your vehicle
- Less money spent on gas
- See care team in the privacy of your home
- No need to worry about having to find parking in a crowded lot

Examples of common use of VA Video Connect include:

- Mental Health follow up and/or therapy
- In-home assessments
- HBPC visits
- Speech Therapy
- Social Work
- RN visits

**VA Video Connect** is a care delivery method provided to Veterans via live video connection with a member of your care team or specialist.

Using these video technologies makes it possible for a Veteran in their home to have a consultation or visit, in real time, with a team member in Fargo or elsewhere. In other words, it is a modern version of the "house call."

Using VA Video Connect, you see and hear your clinical team member or specialist at your location just as if they were in the room with you.

Many types of evaluations and treatments can be performed using VA Video Connect while avoiding the cost and inconvenience of traveling to an appointment.

VA Video Connect can help you get the care you need where you want it.
